Summary

I'm R Abhi, a second-year **Information Science and Engineering** student with a deep passion for **Full Stack Development** and **AI**. With expertise in technologies such as **React**, **Node.js**, **JavaScript**, and **machine learning**, I focus on creating innovative and scalable solutions that solve real-world challenges. Eager to learn and collaborate, I aim to contribute to transformative projects that shape the future of technology and enhance user experiences.

Experience

YouTube Clone

Developed a YouTube clone using **React** for the frontend and **Node.js** for the backend, integrating **Firebase** for user authentication and real-time data management, with a responsive UI and **MongoDB** for seamless device compatibility. UI for seamless device compatibility, using **MongoDB** and **JavaScript**.

RVCE Club Nexus

- Designed and implemented an interactive platform for students to receive real-time updates from various college clubs, with authorized club members posting updates and students engaging through likes, saves, and direct messages.
- Integrated real-time notifications to keep students up-to-date on club activities and events, built using **Python**, **JavaScript**, **React**, and **Node.js**.

Tech Pulse

- Developed an app that aggregates real-time tech news globally, delivering personalized updates through an AI-powered chat feature, built with **React**, **Node.js**, **Python**, **MongoDB**, and **REST APIs**.
 - Integrated **AI/ML** to respond to user queries and optimize news delivery based on preferences, with a focus on performance and seamless user experience, hosted on **Google Cloud**.
-

Skills

Artificial Intelligence, React, Python, HTML, CSS, JavaScript, MongoDB, Node.js, SQL

Education

PUC

ST JOHNS PU COLLEGE, Davangere
03/2023

Information Science and Engineering

RV COLLEGE OF ENGINEERING
cgpa - 7.7

Certificates

Artificial Intelligence - Internship and training at Skolar, Data Analytics Job Simulation at Deloitte
