Portfolio: <https://r074.netlify.app/>

Skills

- **Programming Languages:** C, C++, Python, Javascript
 - **Frontend Technologies:** HTML, CSS, Tailwind
 - **Backend & Frameworks:** Node.js, Express.js, MongoDB, SQL
-

Education

RV College of Engineering, Bangalore, IN
BE Computer Science and Engineering

Dec 2021 - Jul 2025

GPA: 9.12

Vidyaniketan PU College, Tumakuru, IN
Pre-University

Jun 2019 - May 2021

Percentage: 96.85%

Experience

ATDXT, Bangalore, IN
Project Intern

Nov 2023 - May 2024

- Developed a desktop application integrating iris, fingerprint, and facial recognition for secure owner authentication.
- Contributed to developing an efficient algorithm for fingerprint extraction and matching with an accuracy of over 98%.

RVCE

Aug 2023 - Nov 2023

Frontend Developer

- Worked on the frontend part of a website for a teacher profile for a cluster of government schools in Ramanagar.
 - Built the project using HTML, CSS, and JS, helping to revise concepts.
-

Projects

Fest Management System

JavaScript, Svelte, Node.js, Express.js, MySQL, MongoDB

- Designed a college event management system with **ReactJS, MySQL, and MongoDB**, featuring role-based access control and password generation.
- Integrated **WebSocket** for real-time notifications and ensured **secure feedback collection** for efficient event management.

Road Sign Recognition System

Python, Keras, Flask, HTML/CSS

- Implemented a CNN-based road sign recognition system in Python with Keras, including a comprehensive preprocessing pipeline.
- Designed and trained a CNN using convolutional, pooling, dropout layers, REL, SoftMax activations, Adam optimizer, and categorical cross-entropy.
- Created a web interface with HTML/CSS and Flask to enable user interaction and display model predictions.

Portfolio Website

JavaScript, HTML, CSS

- A responsive portfolio hosted on **Netlify**, featuring CV, projects, skills, and contact details, with links to GitHub repositories and project reports.
-

Societies/Cells

Placement Cell of RVCE, Bangalore, IN
Student Placement Coordinator

July 2023 - Present

- Facilitated student training programs to enhance placement readiness.
 - Led successful campaigns to organize and manage campus placement interviews.
-

Sports

- Represented the college in inter-collegiate Zonal and State level Ball Badminton competitions for the past three years.
 - Helped the team maintain top 4 spots at the State and Zonal Level.
-

Certifications

Introduction to Soft Computing

- An **NPTEL** introductory course on **Fuzzy Logic, Optimization, Genetic Algorithms, and Artificial Neural Networks**.
 - Earned Elite certification in **March 2024**, ranked among the top.
-

Publications

Denoising and Quality Enhancement of CT scan/X-ray images of lung disease for Enhanced Diagnosis

- Study on noise reduction techniques in medical imaging, focusing on filtering and contrast enhancement to improve image quality and diagnosis accuracy to over 99%. (**ISDIA**)
- Jul 2023**
